Dear Sir:

Petition for Earlier Filing Date

The patent application serial number 09/693,393 entitled "System and Method for Enabling File Transfers Executed in a Network Environment by a Software Program" was granted a filing date of October 20, 2000 by the United States Patent and Trademark Office ("USPTO"). Applicants hereby petition under 37 C.F.R. §1.183 that an earlier filing date of October 19, 2000 be granted. The circumstances giving rise to this petition are as follows:

On Thursday, October 19, 2000, attorney for the Applicants, Armando Pastrana, completed the present patent application and signed the necessary papers. Also on that day, Janice Pampell, acting as Mr. Pastrana's assistant, completed and signed a certificate of mailing for the patent application (a copy is attached as Exhibit 1) and sealed the application in an Express Mail envelope (a copy of the Express Mail label is attached as Exhibit 2). The envelope was then delivered to an independent copying and mail contractor, IKON, which handled incoming and outgoing packages for the Applicants' attorneys. According to IKON, the Express Mail envelope was picked up by Corporate, Financial and Industrial Delivery ("CFI"), a courier service, with instructions for immediate delivery to the United States Postal Service ("USPS"). It was, in the experience of IKON and the attorneys for the Applicants, the regular practice of CFI to deliver Express Mail packages to the USPS the same day and return executed Express Mail receipts the next morning. In several previous cases, CFI had

assiduously deposited Express Mail packages with the post office on the same day that the packages were picked up, in accordance with the policy and instructions of the attorneys for the Applicants. Based on the previous practices of CFI and the information available to them, Mr. Pastrana and Ms. Pampell had a good faith belief that the package would be mailed in the normal course of business no later than October 19, 2000. However, on October 19, 2000, the employee assigned to deliver the present application, "forgot" the package in his car and failed to timely convey it to the USPS (see Exhibit 3, letter from CFI). The employee did not remember the package until the next morning (October 20, 2000), at which time he delivered it to the USPS for Express Mail delivery (see Exhibit 3). The application was accorded a filing date of October 20, 2000 by the USPTO based upon the "date-in" notation of the Express Mail receipt (see Exhibit 2). See 37 C.F.R. §1.10(a) *infra*. The CFI employee who delivered the package was subsequently discharged by CFI as being unreliable (see Exhibit 3).

37 C.F.R. §1.10(a) states that "[a]ny correspondence . . . that was delivered by the "Express Mail Post Office to Addressee" service of the United States Postal Service . . . will be considered filed by the Office on the date of deposit with the USPS. The date of deposit with the USPS is shown by the "date-in" on the "Express Mail" mailing label . . ." Under this section, as applied to the Express Mail mailing label received by the USPTO, the filing date would be October 20, 2000 (as was accorded by the USPTO). Applicants do not contend that the date of deposit was illegibly or improperly entered by the USPS (see 37 C.F.R. §§1.10(b), (c), and (d)), or that the application was not received by the USPTO (37 C.F.R. §1.10(d)). Rather, Applicants respectfully petition the Commissioner under 37 C.F.R. §1.183 to suspend the requirements of 37 C.F.R. §1.10 and to grant an earlier filing date to the present application. Under 37 C.F.R. §1.183, the Commissioner may "[i]n an extraordinary situation, when justice requires" suspend or waive any requirement of the regulations which are not a required by a statute.

It is Applicants' belief that the earlier filing date should be granted because, as Applicants respectfully submit, the Applicants took reasonable steps to properly deposit the application with the United States Postal Service for Express Mail delivery on October 19, 2000. To this end, Applicants deposited the present application with CFI, giving instructions that the application must be delivered the same day (October 19, 2000) to the USPS for "Express Mail to addressee" shipment. Up until that date, CFI had provided impeccable service, strictly following the same day delivery instructions. Applicants gave control of the application to the courier service with a reasonable good faith belief, based on the standard practice of CFI and past experience with the company, that CFI would deposit the application with the USPS on the

same day. Thus, the Applicants intended to and took reasonable steps to deposit the present application with the USPS for "Express Mail to addressee" service on October 19, 2000. The failure of the CFI was an extraordinary event of disgraceful service that could not have been reasonably foreseen by Applicants. But for this unforeseeable lapse in diligence by CFI, the application would have been deposited with the USPS on October 19, 2000. An occurrence of this type had not previously occurred and has not been repeated.

Applicants respectfully submit that the granting of the earlier filing date will serve the interests of justice because the present application claims priority to provisional application No. 60/160,402, filed October 19, 1999. If the earlier filing date is not granted, the present application will be unjustly prejudiced through a loss of priority. In light of the extraordinary circumstances described above, and in the interest of justice, Applicants respectfully entreat the Commissioner to suspend the requirements of 37 C.F.R. §1.10 and grant a filing date of October 19, 2000.

The Applicants appreciate the time taken by the Commissioner to fully review this petition. Ms. Pampell, based on her knowledge and belief has attested to the facts presented in this Petition for Earlier Filing Date (a Declaration is attached as Exhibit 4). Enclosed are a copy of the certificate of mailing receipt signed by Ms. Pampell (Exhibit 1), a copy of the Express Mail mailing label dated October 20, 2000 (Exhibit 2), a copy of letter from CFI regarding the failure to deliver the application (Exhibit 3), a Declaration from Ms. Pampell (Exhibit 4) and a check for One Hundred and Thirty Dollars (\$130) representing the petition fee required by 37 C.F.R. §§1.183 and 1.17(h).

The Commissioner is hereby authorized to charge any fees or credit any overpayments to Deposit Account No. 50-0456 of Gray Cary Ware & Freidenrich LLP.

Respectfully submitted,

Gray Cary Ware & Freidenrich LLP

To whom it may concern:

CFI Delivery company has been making mail deliveries for Gray Cary Ware & Freidenrich for the past few weeks.

We do a morning post office pick-up to deliver to Gray, Cary and an afternoon pick-up of mail to deliver to the post office.

On the evening of October 19, 2000 our driver assigned to make the mail run separated the regular mail from the express mail. He delivered the regular mail to the bulk mail receiving area and forgot to deliver the express mail at the front customer service counter.

After realizing he forgot the next morning he then delivered the express mail to the post office which caused the postmark date to be one day later.

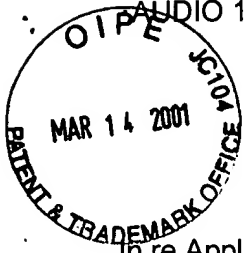

This was the driver's mistake and actions have been taken.

I do apologize for any problems this may have caused and I can reassure you that there will be no issues of this matter in the future.

Please call me if there anything else I can do for you.
